To whom it may concern

This is a recommendation letter for Mr. Josep Lluís Carreras González. He was my undergraduate student at the Universitat Autònoma de Barcelona several years ago, and I was his Advisor for the Diploma Thesis. I have to say that Josep Lluís exhibits excellent skills for research, as it was demonstrated by the fact that we were able to publish a paper as a result of his excellent work conducting to the Diploma Thesis. He is an honest person, able to work under cooperation schemes, with great capacity to achieve his objectives, and I am sure that he has a great capability to be adapted to new situations and challenging scenarios. I have no doubt that Mr. Carreras is a very interesting person both for the Industry and for the Academia.

For all these reasons, I fully recommend Josep Lluís to anybody interested in him.

Best regards,
